

In those first critical moments...when life is stalled temporarily and every second counts, clinicians can be reassured that the F&P Neopuff™ Infant T-Piece Resuscitator is designed to provide controlled inflation pressures. T-Piece resuscitation is a standard of care that is recommended by all major resuscitation guidelines, including ILCOR and AHA's Neonatal Resuscitation Program.

The F&P Neopuff is designed to provide:

- **Accurate Pressure Control**
- **Ease of Use and Versatility**
- **Family of T-Piece Circuits**
- **Cost Benefits**

The **F&P Neopuff** was the first T-Piece Resuscitator to be introduced to health care providers around the world. Since its introduction to the US, the F&P Neopuff has established a proven track record in T-Piece resuscitation. The F&P Neopuff is now used in over 120 countries around the world and has been included in over 10 years of clinical studies. This is a testament to the depth of experience of Fisher & Paykel Healthcare in the neonatal setting and the Company's commitment to research and development, training and education.

F&P NEOPUFF BENEFITS

Medical Grade Manometer	Superior manometer accuracy up to 80 cmH ₂ O (+/-1.6 cmH ₂ O).
	Each manometer is individually calibrated during manufacturing, ensuring pressures are accurately measured and displayed and consistently delivered.
	Fast-acting needle and easy-to-read dial.
PIP Control	Easy-to-grip knob for adjustment of exact Peak Inspiratory Pressures (PIP).
Convenient Mounting Options	A range of mounting options is available for bed and pole set ups in L&D and the NICU. Also ideal on transports and in other departments.
Complete Accessory Range	Availability of a complete range of accessories including gas supply line and full range of infant resuscitation masks.
	A new and first-of-its-kind Ergonomic T-Piece Circuit with a Duckbill Port.
	Neopuff is the only T-Piece device to provide a Humidified T-Piece circuit option that provides Optimal Humidity during resuscitation.
	All accessories are Latex and DEHP Free.
	Family of T-Piece Circuits all allow for easy viewing of infant's face.
Value	Neopuff remains very affordable for any hospital regardless of the continuous enhancements made to the Neopuff. F&P recognizes the necessity of T-Piece Resuscitation and continues to bring this value to clinicians around the world.
